

Sunwoda lithium battery Cuba

Is sunwoda a good battery company?

Today, HEV batteries are the backbone of Sunwoda's power battery business, with production operating at nearly full capacity, according to Wang. This low-key battery company has managed to attract both domestic and international automakers.

Is sunwoda a key supplier for Li auto's L7 & L8 models?

Industry sources reveal that Sunwoda, a key supplier for Li Auto's L7 and L8 models, is quietly weaving itself into the supply chains of several other automakers. This rise echoes that of China Aviation Lithium Battery (CALB), which gained a foothold with GAC Aion just before its sales took off.

How long did it take sunwoda to develop a battery?

Sunwoda's first battery took 3-4 years to move from development to mass production, finally hitting the market in 2019. Today, HEV batteries are the backbone of Sunwoda's power battery business, with production operating at nearly full capacity, according to Wang.

Sunwoda specializes in lithium batteries and their upstream and downstream fields, offering comprehensive technical services including testing and analysis, certification, standard technical research, collaborative R&D innovation, and high-quality overall solutions.

With over 26 years of experience in the sustainable energy industry, Sunwoda Energy has the expertise to provide comprehensive energy solutions, including Lithium Battery Cells, Energy Storage Products, and customized Energy Investment & Operational Services.

After more than 20 years of development, Sunwoda has become a global leader in the field of lithium-ion battery, forming six segments: 3C battery, EV battery, energy service, smart hardware, intelligent manufacturing and industrial internet and testing service.

Founded in 1997, Sunwoda Electronic Co., Ltd. ("Sunwoda" for short) went public on the Shenzhen Stock Exchange in 2011 (stock code: 300207) and successfully listed Global Depositary Receipts (GDR) on the Swiss Stock Exchange in 2022, making it a leading enterprise in the global lithium-ion battery field.

It is worth mentioning that Sunwoda's world-first 6C flash-charging battery 3.0 in 2024 was also unveiled at this exhibition. It can be charged to 80% SOC in 10 minutes, which greatly relieves users' charging ...
