What is Sweden's largest energy storage investment?

Sweden's largest energy storage investment, totaling 211 MW, goes live, combining 14 sites. 14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region.

How many large-scale battery storage systems are there in Sweden?

14 large-scale battery storage systems (BESS) have come online in Sweden to deploy 211 MW / 211 MWh into the region. Developer and optimiser Ingrid Capacity and energy storage owner-operator BW ESS have been working in partnership to deliver 14 large-scale BESS projects throughout Sweden's grid, situated in electricity price areas SE3 and SE4.

Who is responsible for Sweden's energy grid connection?

At the time, Sweden's Minister of Climate and Environment, Romina Pourmokhtari, was responsible for overseeing the grid connection. In comments at the ceremony, Pourmokhtari said, 'It is a great honour to launch the largest investment in energy storage in the Nordics, with 211 MW of electricity currently connected to the grid.'

Does Sweden pay for energy storage?

Sweden has announced a government subsidy that will cover 60% of the cost for installing a residential energy storage system, up to a maximum of 50,000 kroner (US\$5,400). Battery, wiring, management systems and installation will all be eligible for payment under the subsidy.

ESA engages with officials at the White House and across the Departments to educate on energy storage technologies markets and inform federal activities promoting energy storage. In addition, ESA educates Members of Congress on energy storage technologies and the U.S. industry, building broad and bipartisan support for initiatives on storage to ...

The Energy Storage Association announced that advanced energy industry veteran Kelly Speakes-Backman will become the organization's first CEO, effective ...

Speakes-Backman left at the beginning of this year after being picked to serve in the Biden-Harris administration as the Department of Energy's Principal Deputy Assistant Secretary for Energy Efficiency and Renewable Energy. Burwen, the group's former VP of policy, stepped in as Interim CEO. ESA has worked with policymakers and stakeholders throughout ...

The U.S. Energy Storage Association (ESA) is merging into the American Clean Power Association (ACP), effective January 1, 2022. This merger follows the unanimous recommendation from both the ACP and ESA Board of Directors and overwhelming approval of ESA's voting members. (Read the press release [here](#).)

The U.S. Energy Storage Association produces an extensive webinar series on a range of topics of interest and relevance to our membership. Topics include current events impacting the storage sector, market updates, technical issues facing the industry, and primers introducing energy storage topics to those new to the technologies - among others.
