Sweden hammond enclosures

Hammond's 1418 series of mild steel wallmount enclosures is designed to house electrical, electronic, hydraulic, or pneumatic controls and instruments. Constructed of formed 14 gauge steel, the 1418 series offers NEMA Type 12 and 13 protection. Inner panel is included.

Hammond's 1550ZF series features the same rugged, thick-wall diecast aluminum enclosures as our long-standing 1550Z series, but with a tough welded-on bottom flange for easy surface mounting. 1550ZF enclosures are independently tested to meet IP66, IP67, and IP68 as well as NEMA Type 4, 4X, 12 and 13 ratings.

NEMA stainless steel enclosures by Hammond are designed for harsh indoor and outdoor applications - food, pharmaceutical, marine, and more - where enclosures and their contents are subject to washdown and wet areas. Hammond enclosures come in either 304 or 316-type stainless steel to protect important components in corrosive environments.

Hammond's RM Series of 19 inch rack mount enclosures are built from thick, rugged aluminum extrusions. The material is tough yet easy to machine, and the textured black powder coat finish gives a high quality finish. They are available with solid or vented top and bottom plates, and with height ranging from 1U to 4U and depths ranging from 8 inches to 28 inches.
