

The H&#228;nel CleanStore Rotomat&#174; is the ideal solution for low-particle storage in clean-rooms. Storage of contamination-sensitive products up to clean-room class 5 according to DIN EN ISO 14644-1 is possible.

Today we are one of the world's leading manufacturers of automated vertical lift systems and storage carousels for both industrial and office applications. Our range of high-tech automated solutions includes H&#228;nel ...

1 Rotomat&#174; 600/115/250/305 with 10 telescopic drawers, a height of 215 cm and a width of 250 cm = 24.60 running meters of storage space. To achieve the same storage capacity, you need 14 filing cabinets each with 3 drawers and a width of 588 cm = ...

Constant operational readiness is the key requirement for the day-to-day use of storage and materials handling systems. The user must be able to rely on the technology and electronics. Original H&#228;nel parts: Quality "Made by H&#228;nel" H&#228;nel service technicians fit your system with original H&#228;nel parts.

Today Rotomat&#174; carousels and H&#228;nel Lean-Lifts&#174; are produced in 3 manufacturing plants and exported worldwide. H&#228;nel has distributors in over 50 countries across the globe. Innovation and performance, dynamics and ideas, new technologies and team spirit have made H&#228;nel one the leading providers of storage and organization systems.

With the H&#228;nel Rotomat industrial carousel, we offer a flexible storage and provisioning system that adapts optimally to your needs. Up to 60% more storage capacity. The H&#228;nel Rotomat&#174; industrial carousel makes use of the available room height and creates up to 60% more storage capacity thanks to its compact design. This means costly ...

13 H&#228;nel Rotomat&#174; industrial storage carousels - ensure maximum efficiency in the dispatch warehouse. The high order-picking-performance due to short travel paths enables about 1,700 finished items per workstation - to be handled each day. The storage system extends through two floors ensuring that optimum use is made on floor space.

The H&#228;nel Rotomat&#174; is the ideal storage system for patient and personnel files! With the automated H&#228;nel Rotomat&#174; filing system, the time spent on daily administrative tasks can be reduced significantly. Faster retrieval of requested files ...

The Hanel Rotomat is the answer for maintenance storage solutions. Learn how a storage system can be used for spare parts and tools used for maintenance. ... Sweden; Switzerland; Serbia; Singapore; Slovak Republic;

Slovenia; Spain; ... for example, can be stored in the H&#228;nel Rotomat&#174;. The pluses. Making maximum use of the available space ...

The control system for quick and easy connection of our storage devices to the customer's ERP system. This version offers a file interface for storage and retrieval orders (pick lists) or individual data records. Data conversion is handled in the control system. The exchange of data is automatic and time-controlled.

The compact design of the H&#228;nel Rotomat&#174; enables over 60% more storage area to be created on a minimal footprint by making use of the available room height. The operating principle. The H&#228;nel Rotomat&#174; creates an enormous amount of ...

TQ-Systems, a German electronics provider in Seefeld near Munich, relies on 45 H&#228;nel Rotomat&#174; storage systems to optimize production logistics. LACOM/TS communications software and the LACOM/IDOC server are used for intelligent and flexible coordination of the put and pick operations for SMD and THT components in the storage carousels.

H&#228;nel's inventory management programs are intelligent software systems for computerized handling of warehouse processes on H&#228;nel storage systems. These programs manage storage locations, articles, tools, stocks, pick and put jobs and orders. H&#228;nel offers special software solutions for every application: Integrated Control Software

If electronic components need to be stored in an antistatic, aircontrolled environment, the ESD version of the H&#228;nel Rotomat&#174; storage carousel can be combined with systems like the H&#228;nel ...

Innovation and performance, dynamics and ideas, new technologies and team spirit have made H&#228;nel one the leading providers of storage and organization systems. With the H&#228;nel Rotomat&#174; storage carousel, we offer a flexible ...

This enables the H&#228;nel microprocessor controller to achieve optimum distribution of the storage items thanks to loading recommendations. If system operators follow the recommendations, the inventory items inside the storage system are kept in nearly perfect balance. As a result, very little energy is required for the rotation movement.
