

What's going on with GSE?

It has already made a very good start down this road, with all of its 16 passenger buses and all of its 24 baggage tugs now being electrically powered, as are many of the other GSE units (including belt loaders and high loaders) operating on its ramp.

Could GSE electrification save energy?

The project assessed such concerns as the potential energy saving and emission minimisation that could be achieved through GSE electrification, what size and type of batteries might best be adopted and much more besides, recalls Martin Hofmann, GSE fleet manager at Flughafen Stuttgart.

Is Stockholm moving to greener GSE?

Meanwhile, in terms of the process of moving to greener GSE within a wider environmental strategy, Anders Ståhl, head of airside and landside operations at Stockholm Arlanda Airport, recalls: "During the first few years, our activities were focused on green electricity, comfort control in buildings and the shift to LED lighting.
