Does caterpillar use hydrogen?

Caterpillar is expanding on its legacy in gas engines and Solar® gas turbines with more than 35 years of experience with high-hydrogen fuel. Many of our products can use hydrogen on a blended basis today and we are expanding this capability for the future.

Does caterpillar have a battery electric underground loader?

Caterpillar has also developed a battery electric underground loader, the R1700 XE. Along with its mobile equipment charger, the MEC500, this solution is a game changer in deep, difficult to ventilate and high temperature underground mines.

Does caterpillar use electric drive?

While Caterpillar has been incorporating electric drive technology into its construction and mining machines for many years, today's advanced electric drive machines offer greater agility, improved cycle times, less fuel consumption and lower carbon emissions than earlier versions.
