How Does the Energy Activation Process Work? The energy activation process at the TFD Energy Activator Farm involves several key steps: Energy Assessment: The first step is to evaluate the energy needs of the farm. Activation Techniques: Various technologies, such as solar panels and wind turbines, are employed to harness renewable energy.

The "Energy Activator Blueprint" has a consistent drop rate for me, occurring every three days. Despite a mere 3% chance of obtaining it, I've noticed this pattern after opening around 20-30 Amorphous Materials during those periods. This consistency makes me believe the system might be rigged. How can such an essential resource be treated this way?
