How to choose a solar energy company in Thailand?

As solar is becoming cheaper and more popular, choosing among the many solar energy companies in Thailand is getting harder, especially so as each installer may offer you different packages, services and energy solutions. Finding the right solar installer for your roof is important in ensuring a hassle-free installation that you are satisfied with.

Are Thailand's solar power companies launching a business-to-business model?

Solar power firms in Thailand are pushing business-to-business models with no upfront costs, instead installing rooftop solar facilities on a contract basis, sold on the promise of energy savings of 30-40%. Some of Thailand's top players, such as Constant Energy, have already expanded operations into Vietnam and Malaysia.

Who is Bangkok solar power?

1. Bangkok Solar Power Co. Ltd Founded in 2007 as a subsidiary of Bangkok Cable Group, BSP has been developing its activities for providing the Engineering, Procurement, and Construction (EPC) solutions in relation to Photovoltaic (PV) Power Systems for domestic and international markets.

Who dominates the solar PV market in Thailand?

In regard to production, SPPs (Small Power Producers) and VSPPs (Very Small Power Producers) dominate the solar PV Thai market, a situation that is not expected to change over the next two decades. In fact, EGAT's final target in terms of solar PV production by 2038 is only 3%.
