The Holocaust in the Netherlands was organized by Nazi Germany in occupied Netherlands as part of the Holocaust across Europe during the Second World War. The Nazi occupation in 1940 immediately began disrupting the norms of Dutch society, separating Dutch Jews in multiple ways from the general Dutch population. The Nazis used existing Dutch ...

The people of the northern Netherlands began to be distinguished from the inhabitants of the south (to whom the name Flemings continued to cling) by the appellation Hollanders (French: Hollandais; Italian: Olandese; German: ...

Limes romanus in the Netherlands. During the Gallic Wars, the area south and west of the Rhine was conquered by Roman forces under Julius Caesar in a series of campaigns from 57 BC to 53 BC. [2] The approximately 450 years of Roman rule that followed would profoundly change the Netherlands.. Starting about 15 BC, the Rhine in the Netherlands came to be defended by the ...

During these two years, the Germans and their Dutch collaborators deported some 107,000 Jews, mostly to Auschwitz and Sobibor, where they were murdered. Only 5,200 survived. In addition, 25,000-30,000 Jews went into hiding, assisted by the Dutch underground. Two-thirds of those Dutch Jews who went into hiding managed to survive.

1. Introduction. Globalization and climate change require an increased awareness that animal diseases can

suddenly emerge worldwide. Well-designed and implemented monitoring and surveillance systems in livestock farming are important for early detection of disease outbreaks, to limit the impact on animal health and welfare, but, where ...
