

The PV panel rental scam revealed

Are solar panels a scam or a cold call?

Here are the cold calls and potential scams to avoid. More than a third of solar PV panel owners in our recent survey told us they have been cold called about their panels in the past five years. Most cold callers were trying to sell them something unnecessary, but a few owners were told something completely untrue.

Are free solar panels a scam?

Emails offering cheap solar panels or appearing to be backed by a Government scheme could also be scammers, taking you to an seemingly-official website offering free or cheap installation. These incredible deals rarely exist, so approach these with caution to avoid wasting your time. 3. Free solar panel online ads

How do I know if my solar panel is bad?

If you're concerned, contact your installer in the first instance or a recommended solar panel firm. If there is a problem with your system this will often be indicated by a fault code on the inverter. More than half of solar panel owners have had cold calls about their solar pv panels.

Are 'fake' solar companies a scam?

Beware of any company asking you to make a big deposit before they have completed their installation. This is one of the most common ways 'fake' solar companies have targeted consumers - whereby they take a hefty deposit and then never turn up to carry out the installation. This is common solar scam.

Is my solar panel installer going out of business?

If you're not sure whether your solar panel installer has gone out of business, and a cold caller is insisting they are taking over, don't take their word for it. In this instance, it turned out to be a scam. Instead, check your original installer's website and try the contact details you were given when your panels were installed.

What do cold callers say about solar panels?

The most common things solar panel owners told us they had been approached by cold callers about were: Trying to sell you a battery storage system was another frequent, uninvited offer. A few also reported cold callers claiming that their solar panels were being monitored, their system was a fire risk, or that their panels needed cleaning.
