

The Scam of Photovoltaic Panels

How does a solar installation scam work?

How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives. Sometimes they also claim their company will cover the cost of installation by providing huge rebates.

Are solar leases and PPAs a scam?

No, not all leases and PPAs are scams. However, they seem to be a breeding ground for deceptive and predatory practices, including the old "government is paying people to go solar" scam. Related reading: Solar Leases vs. Solar Loans vs. Solar PPAs

How do I avoid solar panel scams?

Getting multiple quotes and thoroughly vetting installers is the best way to avoid solar panel scams. You can also use solar.com to compare quotes from our network of thoroughly vetted installers.

Are solar panels free?

As far as actual free solar panels go, there are some small programs in places, like the Solar for All program in Washington D.C., geared toward low-income households that offer modestly-sized solar panel systems for free. Very few homeowners will be able to qualify for these low-income solar programs. How much will solar panels cost you? 2.

Are you getting ripped off when buying solar panels?

Solar is expensive, no matter how you shake it. And savings sound nice, but if you get stuck with an overpriced solar panel system that's underperforming, you're going to save much less. That's why we put together these tips to avoid getting ripped off when buying solar panels -- backed by expert advice.

Are homeowners paying for solar panels in a lease or PPA?

In short, free solar panel ads are typically for leases and power purchase agreements (PPAs). These arrangements are basically long-term solar system rentals in which the solar company owns the panels and homeowners pay a monthly fee in lieu of their electricity bill. So, are homeowners technically paying for solar panels in a lease or PPA? No.
