

The truth about free installation of photovoltaic panels

Is it a good idea to get free solar panels?

Getting free solar panels through a solar lease or Power Purchase Agreement (PPA) can save you money on your electricity bill. The payments for the solar energy you use are typically lower than what you paid your utility company. With a solar lease, you'll be given a flat fee to pay to the solar company each month.

Are free solar panels a lie?

While the word "free" implies there are no associated costs, this is not usually the case with free solar panel offers. "I have never seen an advertisement offering free solar that is not a lie," said Neil Gallagher of Brighterway Solar, a solar installation company in Florida.

Are "free" solar panels a scam?

However, it's important to note that "free" solar panels are not always a scam, but they do require careful consideration. These "free" solar panels are typically offered through solar panel leases or power purchase agreements (PPAs), which allow individuals to install solar panels without the high expense.

Does the Department of energy offer free solar panels?

The Department of Energy and the Solar Energy Technologies Office have got you covered! The Department of Energy is aware of claims of offers for free solar panels or that solar companies must provide solar panels for free if requested.

What are the disadvantages of a "free" solar panel program?

Here are a few of the main downsides of going with a "free" solar panel program: Low-quality equipment: Some low-cost solar energy systems may also have lower-quality parts and poor-quality installations. Built-in rate escalators: Many PPAs and solar leases include scheduled rate escalators.
