Will CNNP move into the solar market of Timor-Leste?

The renewables unit of China National Nuclear Power (CNNP) is considering move into the solar market of the Southeast Asian market of Timor-Leste, two sources told Infralogic. CNNP Rich Energy is interested in taking part in an international tender to develop a solar plus battery energy storage system, they said.

How long will the integrated power facility last in Timor-Leste?

The duration of the integrated power facility will be about 25 years, and the bid deadline is 1 May. Renewables account for only 8% of the total electricity supply in Timor-Leste, with 99% of that coming from bioenergy and 1% from solar, according to a report issued by the International Energy Agency last year.

Does Timor-Leste have electricity?

In Timor-Leste, the access to electricity varies significantly, from about 80 percent in the capital Dili to 10 percent in outlying regions. 24-hour electricity is available only in Dili and Baucau (the two largest towns). According to 2004 census data, at least 185,000 households lack access to the electricity grid.

Can a Timor-Leste solar power plant be financed?

The tender, which was announced in February this year by state utility Eletricidade de Timor-Leste, is seeking an investor that can design, finance, operate and maintain a 72-85 MW solar power plant and a 36-43 MW battery energy project under long-term purchase agreements with the state grid in the capital city of Manatuto, the sources said.

How many people benefited from a rural energy programme in Timor-Leste?

The programme reached 1,875 individuals in 375 households, with multiple impacts on quality of life, income and livelihoods. The programme also developed a national Rural Energy Policy, creating an overarching framework for future government activities in improving rural energy access in Timor-Leste.

Does predp paved the way for future energy access in Timor-Leste?

Conclusions Although PREDP was a pilot programme, it has paved the way for future energy access activities in Timor-Leste. It was the first rural energy programme in Timor-Leste to include a capacity development component, and to have the GoTL and local communities as major partners.

The project, Chappice Lake Solar + Storage, will combine a 21MWp solar array with a 2.8MW/8.4MWh battery storage system, Anglo-American flow battery company Invinity said today, together with the project's developer, owner and operator, Elemental Energy.
