Titan handles all aspects of a solar module installation. We take pride in our work and know that it will stand the test of time.

What happened to Titan solar power?

Titan Solar Power, a large US residential solar installer, unexpectedly ceased operations on June 13, 2024. The Chandler-based solar company, founded in 2013, filed for Chapter 7 bankruptcy protection on June 20. The company reported having between 5,001 to 10,000 creditors. Kyle Beddome is listed as the company's business owner.

Does Titan solar have assets available to pay creditors?

A statement provided on the Court's web page says, "In most of the cases filed, it appears that there are no assets available to pay creditors." Titan's closure is the latest in a string of high-profile solar company failures, including Pink Energy (formerly Powerhome Solar), ADT Solar, and others.

Why should you choose Titan solar?

Titan handles all aspects of a solar module installation. We take pride in our work and know that it will stand the test of time. Solar is what we do and what we excel at. As a Titan partner, you can rest assured we are just as committed to ensuring every one of your customers are elated with their decision to go solar.

How does a Titan solar panel work?

Titan will have little control over how long this step is going to take! The solar panel's job is to take excess electron energy and turn it into electric power. Silver acts as the conductor to pass electricity on to an inverter. The inverter acts as the brain of your solar system.

How do I file a complaint against Titan solar?

File a complaint. The Arizona Attorney General's Office is looking into the business practices of Titan Solar, if you have any issues with the company, customers are encouraged to let the AG know about them. For more information, or to file a complaint, [click here](#).
