Can Tokelau support itself with solar energy?

Tokelau, an island nation in the South Pacific, is now completely able to support itself with solar energy. Elly Earls met Joseph Mayhew of the New Zealand Aid Programme to find out how this tiny collection of atolls has become almost 100% self-sufficient in less than 12 months.

Where does Tokelau get its electricity from?

Except for that part of the electricity supply provided by Solar Photovoltaic (PV) to TeleTok facilities on all three atolls and the University of the South Pacific (USP) facility on Atafu, essentially all energy in Tokelau currently is from imported petroleum.

Could Tokelau be the world's first renewable nation?

Solar power plants and coconut biofuel-powered generators switched on in Tokelau has made the islands the world's first truly renewable nation.' Imagine a place where the only energy to be found is clean, reliable solar power. Solar Array's seen on the three tiny islands of Tokelau to completely produce solar power energy.

Is Tokelau a solar powered island?

In today's edition, Stephanie Bandi reviewed the newly released documentary Tokelau: The Solar Powered Island of the Future which showcases how the island nation harnesses the energy of the sun to power its three atolls. It's been a long year and it's usually around this time that you might be feeling a bit burnout...

How much electricity does a solar system provide in Tokelau?

Each system alone is among the largest off-grid solar power systems in the world, and together they are capable of providing 150% of current electricity demand in Tokelau, a much higher amount than the 90% that was originally planned for.

Why did Tokelau switch to solar?

Yet despite the challenges involved in installing comprehensive solar systems in such a remote location, switching to solar was absolutely crucial for the tiny collection of islands. 'Tokelau's atolls are low-lying and especially susceptible to the adverse effects of climate change,' Mayhew stressed.

I just ordered from SeLian Energy quantity 16) EVE 3.2v 280ah cells. Price was cheaper than those that I previously bought from Docan. I was contacted within 20 minutes of placing my order thanking me. Contacted again when shipped, and when delivered. They are legitimate! I paid \$114.50 per cell delivered.

Selian Energy is a battery manufacturing company situated in Shenzhen, China, and we take great pride in introducing the HAKADI battery brand. Our specialization lies in the production of sodium-ion, LiFePO<sub>4</sub>, LTO, and LiFePO<sub>4</sub> battery packs. Selian Energy is committed to delivering exceptional-quality battery products
