

At EnerSys Batteries, we recognize the value of a genuine, available, accessible, fast, and reasonable auto battery replacement service. As a leading Exide Battery shop in Vadodara, we provide the best vehicle batteries from well-known and dependable brands like Exide at the most competitive prices on the market. Almost all batteries come with ...

An EnerSys® battery will also be trusted to power the Roman Space Telescope (RST), which is poised to uncover the secrets of dark energy and dark matter when it launches in the mid-2020s. The RST is set to follow in the footsteps of the James Webb Space Telescope and aims to measure light from a billion galaxies over the course of the mission ...

Made from 99.99% pure lead, CYCLON battery plates are extremely thin, so they offer more surface area than conventional batteries and far more power. High purity acid is absorbed right into the Absorbed Glass Mat (AGM) plate separators, so the CYCLON battery provides leak-proof operation in any position.

Whether it's a heavy duty commercial truck, an earth mover, a bus or a marine application, you depend on the vehicle's electronics to provide valuable data, direction and even safety features. Therefore, you need a battery that can power those features without worry of failure. The ODYSSEY Performance ODP-AGM8DT battery meets the ever-increasing power demands of ...

PowerSafe® C Batteries. Engineered to meet the requirements of the power industry, PowerSafe® C batteries are available in two series: CA-M (antimony alloy) and CC-M (calcium alloy). Both series share several features, including thick grids to provide excellent rate performance and long life, and above-the-cell cover posts and connectors for ...

Mit der nächsten Generation der Dünnschichten-Reinblei-Technologie (TPPL) bieten die NexSys Pure-Batterien eine praktisch wartungsfreie Stromversorgung für Anwendungen mit leichter bis mittlerer Belastung.

Genesis® NP Genesis® NP batteries feature heavy-duty thick lead calcium grids for years of dependable performance. The high energy density design, factory sealed case and leak proof construction ensures that these rechargeable sealed lead acid batteries are extremely reliable and virtually maintenance-free.

Mit der nächsten Generation der Dünnschichten-Reinblei-Technologie (TPPL) bieten die NexSys TPPL-Batterien eine praktisch wartungsfreie Stromversorgung für Anwendungen mit leichter bis mittlerer Belastung.

PowerSafe® Vb-Batterien Bei den PowerSafe® Vb-Batterien handelt es sich um geschlossene Bleisäure-Batterien, die für Stromversorgungsanwendungen mit hohen Sicherheitsanforderungen entwickelt wurden. Diese 2-Volt-Einzelsellen, die über eine hohe Energiedichte verfügen, eine lange Lebensdauer aufweisen und sehr wartungsarm sind, eignen sich hervorragend für Kraft- ...
