Who is TW (Tongwei) solar?

Image: TW (Tongwei) Solar. TW (Tongwei) Solar entered the PV industry in 2006, initially specialising in polysilicon production before going on to establish itself as a world-leading manufacturer, currently creating waves in the high-efficiency PV module sector.

What's new at Tongwei solar?

PV Tech spoke with the Chinese manufacturer's vice general manager of PV business, Yan Li, about its ten-year mark, the launch of a new TOPCon module line and the rollout of its Global Partner Programme. PV Tech: This year marks the ten-year anniversary of Tongwei Solar.

When did Tongwei solar start manufacturing solar modules?

Image: Tongwei. A decade can seem like a long time, especially in a fast-moving sector like the solar industry. Tongwei Solar celebrates that landmark this year, a period that has seen it evolve into a vertically integrated solar manufacturer when it started manufacturing modules in 2022.

Is Tongwei a vertically integrated manufacturer?

Tongwei celebrates its 10-year anniversary as a vertically integrated manufacturer, as it entered the module manufacturing market in 2022. Image: Tongwei. A decade can seem like a long time, especially in a fast-moving sector like the solar industry.

What is Tongwei's 'fishery & PV integration' blueprint?

Tongwei innovative lay out the "Fishery & PV Integration" blueprint at the downstream of the industry chain. At the comprehensive application end of the new energy industry, Tongwei follows China's green development strategy deployment.

What makes Tongwei unique?

Tongwei closely aligns with China's green development strategy deployment, organically integrates PV power generation with modern fisheries, and pioneered the "Fishery & PV Integration" development model where power generates on the top and fish swim on the bottom.

Tongwei has set a record for heterojunction (HJT) power output, with its latest module delivering a maximum power output of 776.2W. Huasun secures 1GW HJT floating solar PV supply deal in China...

This longevity also translates into the fact that panels do not need to be replaced as frequently, cutting down on waste over time. High efficiency solar panels often have long warranties and ...

Solar modules are widely used in large photovoltaic power stations or commercial and industrial solar energy

# Tongwei Solar Photovoltaic Power Generation Advertisement

generation systems. A typical commercial rooftop solar system may include dozens or even hundreds of ...

Solar panels harvest light from the sun through photovoltaic cells (PV Cells), which are vital to solar cell functioning. It comes down to the different efficiencies of various PV cells. Monocrystalline solar panels that are ...
