What is the best solar generator?

Overall, our choice for the top solar generator is the Jackery Portable Power Station Explorer 500, which provides over 500 watt-hours and eight output ports, but is still lightweight enough to bring with you on the go.

Are solar generators a good option?

Whether you are looking for a viable “off the grid” living option or want a backup power supply in case of total power loss, solar generators offer a green solution that can be just as effective as gas and propane generators.

What is the biggest portable solar generator?

The biggest portable solar generator from Jackery easily found its way to my list. The 2.16 kilowatt-hours of capacity are enough to power a full camping setup for a few days. And if you hook the 2000 Pro to six 200W solar panels, you can get it fully charged in less than 3 hours.

Are solar generators a good investment?

Solar generators can be a pricey investment. Before you start looking at the various power stations and solar panels and package deals available, it's important to know how much you are willing to spend. Underspending on a power station can result in inadequate power needs in the case of a power outage or while adventuring off grid.

Which Jackery solar generator is best?

Though it isn't quite as impressive as our top picks for best overall and best high-capacity, Jackery's smaller Explorer 300 solar generator is super compact and lightweight with a decent power capacity for its price.
