Solar PV system cost. Ok, let's look at some average solar PV system costs. Considering the capacity of your system, the average price of a solar PV system is between &#163;5,000 and &#163;8,000. For example, if you choose a 3kW system, this will cost around &#163;5,000, while a 5kW system will be closer to &#163;8,000.

Heat pumps work most efficiently with an underfloor heating system but can also work with your existing radiators. The Isle of Man government has published two surveys that illustrate how well heat pumps compare to other methods of domestic heating on the Isle of Man. Running a heat pump also qualifies you for a cheaper energy tariff with the MUA.
