Ampac JP40 21700 tabless (all-tab) cell have a phenomenal discharge rate with more instantaneous watts than any other cell. After 2a charge and 12a... After 2a charge and 12a discharge testing for 1500 cycles, there will be...

The Ampac JP40 seem to be an excellent choice given the internal resistance, I think they can compete with the P50B depending on the use. I think that manufacturers will continue to focus their work on the high discharge capacity of the cells and this technology will be able to supplant li-Po in most RC applications (except micro/nano aircraft

The first-ever contact with Europeans occurred when Christopher Columbus, who was on his third voyage of exploration, arrived at noon on 31 July 1498. [3] He landed at a harbor he called Point Galera, while naming the island Trinidad, ...
