

Across Tuvalu households, domestic firewood and LPG are some of the main fuels for cooking. As the main island becomes more densely populated, there is less domestic firewood available on the island, requiring more to be imported.

In recent years the ever increasing demand for electricity combined with the increasing fuel price has further the need for TEC to continue its vision to provide 100% of its energy demand via renewable sources by 2015.

The objective of the Energy Sector Development Project for Tuvalu is to enhance Tuvalu's energy security by reducing its dependence on imported fuel for power generation . Skip to Main Navigation.
