What is Tilt Renewables?

August 2021: Tilt Renewables scheme of arrangement was implemented with the New Zealand assets purchased by Mercury NZ and the Australian assets by Powering Australian Renewables Fund - itself a consortium of AGL Energy, QIC Global Infrastructure Fund and the Australian Government's Future Fund.

Did Powar take over Tilt Renewables?

The takeover was successful in August 2021. PowAR took over the Australian assets and operations of the former Tilt Renewables, making it the largest private developer and generator of wind and solar electricity in Australia. The combined Australian organisation was subsequently renamed back to Tilt Renewables.

Is Tilt Renewables mulling a higher takeover offer?

Tilt Renewables is mulling a higher takeover offer, throwing into doubt the \$2.7 billion deal struck with AGL Energy's renewable energy fund and Mercury NZ. The clean energy sector in the Australian stock market is not yet sufficiently investable, despite the phenomenal performance of a few. Infratil has almost enough cash to swallow Vocus Group.

Is Tilt Renewables a risky company?

Damage to generation assets risk There is potential for Tilt Renewables to sustain significant losses through damage to its generation plant and the resulting loss of earnings. The major portion of this risk has been mitigated by taking out appropriate insurance policies with insurers of high creditworthiness.

What happened to Tilt Renewables?

October 2016: Tilt Renewables was demerged from Trustpower, with Tilt Renewables taking ownership of all operational wind assets and the wind and solar development pipeline, and Trustpower retaining all hydro assets. Tilt Renewables was dual listed on the ASX and NZX with the ticker TLT.

How much did Tilt Renewables sell in New Zealand?

The New Zealand operations alone were sold at an enterprise valuation of NZD 797 million. According to its latest financial report, Tilt Renewables has nine wind farms in Australia and New Zealand, representing 500 MW of capacity in operation and 336 MW in final commissioning.

Tilt Renewables Limited (Tilt Renewables), formerly Trustpower Australia (New Zealand) Limited, focuses on owning, operating and developing a portfolio of wind farms across Australia and New Zealand.
