What is ProSolar Systems in solar energy?

ProSolar Systems is an award-winning solar energy company serving The U.S. Virgin Islands. We offer a variety of renewable energy products for every home, every business, and every budget.

What is the islands energy program?

In addition to the Bahamas, the Islands Energy team is in the midst of assisting Caribbean island governments and utilities in five other jurisdictions craft and carry out clean, renewable energy transition: the British Virgin Islands (BVI), Belize, St. Lucia, St. Vincent and the Grenadines and Turks and Caicos. Three pillars support the program.

How will the family Islands solar power system work?

Development of the four solar-fueled power systems will set the stage to scale the Family Islands solar program across the island chain's outlying islands, as well as contribute to the Bahamas achieving a national goal of renewable energy resources meeting 30% of electricity needs by 2030.

Is the Bahamas a difficult place to generate electricity?

BPL Chairman Donovan Moxey was quoted in a Tribune Business news report. The Bahamas is a very difficult place to generate electricity, distribute it and sell it, even as compared to other Caribbean islands, Chris Burgess, Islands Energy Program projects director, told Solar Magazine.

Is solar a good option in the Bahamas?

On a kilowatt-hour (kWh) by kilowatt-hour basis, solar's your best, but you need to add battery energy storage capacity in order to reach higher levels of penetration," he noted. "Nassau's [the Bahamas' largest city] is a pretty big grid, and it can take a fair bit of solar without storage," Burgess continued.

Does New Providence need a solar grid?

An interactive, two-way grid is required given any grid-connected distributed solar or renewable energy, however, he added. "Studies have shown that the New Providence grid (which serves Nassau) can take at least 8 megawatts (MW) of solar without worrying about storage.

When asked in the Forbes solar survey how likely they were to recommend solar installations to others, 46% of residents in the Northeastern U.S., including Rhode Island, said very likely. Rhode ...
