program, opening up the application specifications to allow for larger battery systems ...

The Virgin Islands Energy Office received a \$62.45 million grant from the Environmental Protection Agency for solar power programs. (Source file photo) The U.S. Environmental Protection Agency will send \$62.45 million to the territory for residential community solar and power storage projects, federal officials announced Monday.

I'm in IT as well (Remedy/ServiceNow development) so the first bit especially is great information. Is a standard UPS* even worth having for the frequency of black/brownouts or is your batter backup more akin to a Tesla Powerwall type battery? How expensive is diesel and is it tough to come by in prime months?

The Virgin Island Dual Fuel Power Plant - Battery Energy Storage System is a 9,000kW energy storage project located in U.S. Virgin Islands. Free Report Battery energy storage will be the key to energy transition - find out how
