Ubbink has subsidiaries in The Netherlands, Belgium, France and United Kingdom and a distributor network covering Europe, Russia, the America's, Australia and New Zealand. The Ubbink Centrotherm Group plants are located in The Netherlands, Germany, the United States of America and China.

How can photovoltaics benefit New Zealand?

New Zealand's huge hydro storage advantage means photovoltaics, particularly rooftop systems, can unlock real benefits for customers. This could mean shifting the management of the legacy hydro assets to provide a high-value product - stored energy - rather than the gentailers simply using hydro generation to maximise profits.

Who is Ubbink?

Ubbink is part of the Ubbink Centrotherm Group and together with its sister companies Centrotherm, IVT and Sonnenstromfabrik it is the Gas Flue Systems division of Centrotec SE; a global organization that has specialized in energy efficient technology for buildings and is represented in over 50 countries. Offices and plants around the globe.
