Battery Storage: These systems include robust battery storage solutions to store excess energy generated during sunny periods for use during cloudy days or at night. The batteries provide ...

Two tailwinds have driven the oil and gas industry in the past year: consolidation and efficiency. During a 12-month period ending in March, E& Ps have seen a remarkable run of consolidation, with more than \$250 billion transacted. Service companies have also been following suit with their own deals, as they, too, concentrate on streamlining and improving offerings.
