

Tata Sons will build a 40GW battery cell gigafactory in the United Kingdom (UK). The investment, of over £4 billion, will deliver electric mobility and renewable energy storage solutions for customers in UK and Europe. JLR and Tata Motors will be anchor customers, with supplies commencing from 2026

The United Kingdom has been an early player in the energy transition, being among the first countries to set a net zero target by 2050 and to put in place carbon budgets. UK emissions have already fallen by around 50% since 1990, indicating a strong start. Looking ahead, an important pillar of the energy transition will be decarbonising the ...
