

Uron energy Sri Lanka

Who is uron energy?

URON Energy has developed projects in several countries and are well equipped with the experience and skills to create a global presence. URON envisions a future where clean energy technologies are accessible to all, with little or no upfront costs.

What can uron energy do for You?

Here are the solutions delivered by URON: "At URON Energy, we are focused on C&I and small-scale utility solar projects. We are equipped with in-house design and engineering expertise, along with project operations that directly oversee self-perform field work," mentions Urwish.

Who are urvish & uron energy?

Ten years later, in October 2019, Urwish, along with Khrushendu Choksi and Raaj Patel, launched Ahmedabad-based solar energy startup Uron Energy. The clean energy startup, bootstrapped with an investment of \$20,000, offers end-to-end solar solutions from concept till commissioning to all types of clients - corporates, residential, and government.

What makes uron a good company?

At URON, we are driven by a deep commitment to environmental responsibility. Our mission is to create a positive impact on the planet by providing sustainable and innovative solar solutions to homes and businesses. With a focus on renewable energy, we strive to empower individuals and organizations to transition towards clean, solar power.

What services does uron energy offer?

It provides ground-mounted and roof-top solar energy services. URON Energy also deals in organic photovoltaic panels, which can be customised to any shape. These prove very useful in the hospitality industry where these panels can be used as a facade and to generate energy.

What makes uron energy a great EPC player?

In the cluttered market segment of EPC players, URON energy stands out with its unique value proposition. We hate to call ourselves an EPC player as our major interest is not to just build a plant but create a project that leaves a lasting impression not just in terms of project quality but delivers the highest generating plants.
