Vanuatu moixa battery

The Moixa Smart Battery allows you to store electricity charged from your solar panels, rather than sending spare solar energy back to the grid. Can be added to existing solar panels; Store unused solar electricity to power your home in the evening; Charge your Smart Battery from the grid with an off-peak tariff like Economy 7

GridShare is the software that puts the "smart" in a Moixa Smart Battery or to the Moixa Hub in a Moixa Optimised Battery System.. For homes on a time-of-use tariff, GridShare can identify a home's energy generation and consumption patterns, look at weather forecasts and review the home's energy tariff.

The 7.2kWh & 9.6kWh Battery Systems are made up of a Moixa Hub, Pylontech Battery Modules and a Victron Inverter. They can be retrofitted onto existing solar systems or Moixa can offer a solar and battery package. How is the 7.2kWh or 9.6kWh Battery System different from the 4.8kWh Moixa Smart Battery?

The announcement comes hot on the heels of Moixa's new family-sized 4.8kWh smart battery which will help owners take advantage of the growing number of time-of-use tariffs, which reward customers for powering their home and ...
