The \$1.34 billion investment symbolizes Cambodia's drive toward cleaner energy solutions, paving the way for greater energy security and economic development. The 900MW Gas-Fired Power Plant: Enhancing Energy Capacity. With a capacity of 900MW, this gas-fired power plant is set to become a cornerstone of Cambodia's energy landscape.

The Challenges Cambodia's Electricity Demand and Fossil Fuels. Over the past 15 years, Cambodia's rapid population and economic growth have led to a tenfold increase in electricity demand. This has proved challenging, and despite its admirable renewable energy progress, Cambodia is far from total decarbonisation. Unfortunately, this trend will continue for some time.
