What is a wattsun battery generator?

We're here for you. A Wattsun battery generator is the quiet and emission-free alternative to a traditional generator. Power on location with a 230V battery system.

Why did you choose wattsun?

Evert Mekking, Head of the Equipment Service, explains why he chose Wattsun several years ago and how this innovative energy solution has changed their approach. Always the match you're looking for. With the portable battery system from Wattsun, you create your own power source, ensuring you always have enough energy on hand.

Where are wattsun products made?

Our products are designed and developed in the Netherlands, and production takes place both in the Netherlands and elsewhere in Europe. This way, Wattsun keeps the production chain and communication lines as short and sustainable as possible. From now on you always work 100% emission-free. Anywhere you go.

What do you like most about wattsun?

We love WattSun! After being in our home for a few years and seeing our electric bill creep up each month, we decided to go solar. Cayden walked us through the whole process and was extremely patient. This company has great communication, which is hard to come by these days.

Why do charging stations choose wattsun?

Charging stations choose WattSun. Charging station owners trust WattSun to provide charging solutions combined with quality solar structures for professional and secure installation. Buy your solar panels now! Buy your solar panels, batteries, inverters, and accessories now to ensure availability of equipment.

What is your experience with wattsun?

Our Experience with WattSun was outstanding. Cayden was our first point of contact, and he made sure we understood everything we needed to choose and install the right system, size, production, warranties, and loan. Everyone at WattSun has been incredible to work with.

Altijd en overal laden Laad de Wattsun Dock+ direct op met de zon, de wind &#243;f in de bedrijfsbus tijdens het rijden.; Laden in stapel De Wattsun Dock+ maakt het mogelijk om een complete stapel Wattsun-modules op te laden. Plug &#233;&#233;n stekker in de Wattsun Dock+ en het intelligente besturingssysteem laadt de stapel automatisch op van onder naar boven.
