

West District Wind Power Plant

Where are Scotland's Offshore wind demonstration projects located?

Scotland is also home to two offshore wind demonstration projects: The two turbine, 10 MW Beatrice Demonstrator Project located in the Moray Firth, has led to construction of the 84 turbine, 588 MW Beatrice Wind Farm set to begin in 2017 and the single turbine, 7 MW Fife Energy Park Offshore Demonstration Wind Turbine in the Firth of Forth.

Where is the Clyde Wind Farm?

The Clyde Wind Farm is a 522 MW wind farm near Abington in South Lanarkshire, Scotland. The 152-turbine project by Scottish and Southern Energy, [14] which was approved by the Scottish Parliament in July 2008, is capable of powering 300,000 homes. [15] Turbines have been built either side of the M74 motorway. [16]

Which wind farm is near Stirling?

The Braes of Doune Wind Farm opened in 2007 and is located close to Stirling. The wind farm has 36 Vestas 2 MW wind turbines. The farm was built and is run by Airtricity. [13] The Clyde Wind Farm is a 522 MW wind farm near Abington in South Lanarkshire, Scotland.

Where is the largest wind farm in the UK?

Whitelee Wind Farm, near Eaglesham, East Renfrewshire is the largest on-shore wind farm in the United Kingdom with 215 Siemens and Alstom wind turbines and a total capacity of 539 MW. [21]

Where were wind farms built in the 1990s?

Following this, the early 1990s saw a small but steady growth with half a dozen farms becoming operational each year; the larger wind farms tended to be built on the hills of Wales, examples being Rhyd-y-Groes, Llandinam, Bryn Titli and Carno. Smaller farms were also appearing on the hills and moors of Northern Ireland and England.

How many wind turbines are there in the UK?

There are now more than 11,000 wind turbines on and offshore, which produce nearly a quarter of the UK's electricity. National Grid ESO, which runs the electricity network, said the plan it has laid out would enable the government to deliver 50 GW of offshore wind power by 2030 - a third of the UK's electricity demand - while creating 168,000 jobs.

A cable route to transport power from an offshore windfarm to the national network has been chosen following public consultations. The Rampion 2 project team said a route was needed to take ...
