Who is wetility solar?

South African energy start-up, Wetility, has raised R903m in funding to expand its hybrid solar solutions for homeowners. Wetility offers affordable monthly solar subscriptions and customisable solar systems that reduce utility bills and provide uninterrupted power.

What is wetility & how does it work?

Wetility enables you smartly generate solar power on your rooftop, then seamlessly store, release and monitor clean energy to your home or business. We believe that we are here to harness the sun's power with purpose, introducing you to a hybrid solution that works seamlessly and in tandem with your current power options.

What is wetility's flagship product?

Wetility's flagship product is a comprehensive digital solar energy management system that allows users to regulate power usage remotely. Wetility may be growing as it has secured significant funding to support its operations and expansion.

Does wetility offer a flexible financing model?

The upfront costs, however, have been a major constraint for most. Wetility offers a flexible financing model that's similar to a mortgage - customers pay monthly and eventually own the installed solar solution after a given term. To learn more about the company's innovative approach, we chatted to Vincent Maposa, CEO of Wetility.

What is the 360 wetility experience?

The system is marketed as the "360 Wetility Experience" and consists of rooftop PV installation or solar panels. Includes 26 solar panels and 20kWh storage, designed for high electricity bills, offering significant energy independence.

What are some alternatives to wetility?

Alternatives and possible competitors to Wetility may include King Energy, Terabase Energy, and Enpal. Wetility's flagship product is a comprehensive digital solar energy management system that allows users to regulate power usage remotely.

The Wetility app is an easy-to-use digital platform that intelligently enables you to stay connected with remote monitoring and instant alerts. PACE(TM) is the heartbeat of your Wetility solar solution, consisting of a hybrid inverter, lithium-ion batteries and switchgear.

Specific relevant experience and qualifications related to solar PV, battery storage, microgrid projects, RE development, and EPC services should be included. Completed Application Forms shall be submitted
