

# World ranking of wind turbine generators

What are the top 5 wind turbine manufacturers in the world?

Showing 10 out of 45 companies. Vestas Wind Systems AS, Siemens Gamesa Renewable Energy SA, GE Renewable Energy, Enercon GmbH, Nordex SE, and Nordex SE are the top 5 wind turbine manufacturers in the world by capacity (as of March 31, 2022).

Who is the world's largest wind turbine manufacturer & supplier in 2022?

According to the latest data from BloombergNEF (BNEF), Denmark-based wind turbine company Vestas remained the world's largest wind turbine manufacturer and supplier in 2022, thanks to its wide geographic diversification strategy and strong performance in the U.S. market.

Which countries have the largest wind turbine market?

Currently, Asia-Pacific is the largest wind turbine market in terms of cumulative installed wind power capacity with nearly 50% share in 2019, followed by Europe and North America with a share of 33% and 20%, respectively. South and Central America and the Middle East and Africa had small shares of less than 3% each in the same year.

Why is Siemens Gamesa a top 10 wind turbine manufacturer in 2022?

Siemens Gamesa, the latest merger between Siemens Wind Power and Gamesa, ranked second in the world's top 10 wind turbine manufacturers list in 2022, primarily due to its strong position in the offshore sector in India and improved position in the United States. Siemens Gamesa is currently the global leader in the offshore wind market.

Is GE a good wind turbine supplier?

With over 25,000 wind turbines installed globally, GE is one of the world's leading wind turbine suppliers. Its portfolio of turbines features rated capacities from 1.7 MW to 4.8 MW (Onshore) and 6 MW to 12 MW (Offshore). "Climate change cannot be solved without substantial advancements in technology," believes H. Lawrence Culp, Jr, CEO of GE.

Which countries produce the most wind power in 2022?

Denmark produced 55% of its electricity from wind in 2022, a larger share than any other country. Latvia's wind capacity grew by 75%, the largest percent increase in 2022. In November 2018, wind power generation in Scotland was higher than the country's electricity consumption during the month.

Chinese and American turbine manufacturers had a record of new installations that saw most of them moving up in global turbine OEM market rankings," said Feng Zhao, Head of Strategy and Market Intelligence at ...

Cumulatively, the top 10 wind turbine manufacturers in the world had an active capacity of 473,930 MW as of March 31, 2022, where highest being registered by Vestas Wind Systems AS (126,034 MW), followed by
