

Wuxi solinteg power co ltd Syria

Where is solinteg located?

Solinteg is a technology and forward-thinking enterprise that provides advanced and optimized energy storage solutions to intelligently integrate solar energy into distributed grids. Where is Solinteg's headquarters? Solinteg is located in Wuxi Shi, Jiangsu, China. Who invested in Solinteg? Solinteg is funded by TCL Capital.

What is solinteg more platform?

Solinteg has deployed global sales channels and customer service centers, committing to delivering smart, safe, cost-effective and sustainable clean energy to residential, commercial and industrial users all over the world. Solinteg MORE platform is the unique R&D platform for Solinteg inverter product.

When did solinteg close?

Solinteg closed its last funding round on Nov 24, 2022 from a Series A round. Who are Solinteg's competitors? Alternatives and possible competitors to Solinteg may include Singularity Energy Technology, Wemax, and Solardex Energy.

Who funds solinteg?

Solinteg is funded by TCL Capital. When was the last funding round for Solinteg? Solinteg closed its last funding round on Nov 24, 2022 from a Series A round. Who are Solinteg's competitors?

Is solinteg growing?

Solinteg may be growing as it has recently unveiled a new inverter series for rooftop photovoltaic systems, indicating product development and expansion in its offerings. The launch of a new product line suggests the company is investing in research and development to cater to the growing market demand in the clean energy sector.

Why is solinteg expanding its 'premium protect' series?

Additionally, the expansion of its 'Premium Protect' series with a new 440 W glass-glass solar module further demonstrates Solinteg's commitment to enhancing its product portfolio and potentially increasing its market share in the renewable energy industry.

Solinteg MORE platform is the unique R&D platform for Solinteg inverter product. Based on the modular design concept and technology of intelligent algorithm, Solinteg integrates and standardizes the hardware, firmware and structure in one platform.
