Are Yingli solar panels a good choice?

Yingli Solar has modules that range from 315 - 450 watt solar panels, which is a solid range to choose from. Either one of Yingli's residential solar panels will provide enough power to keep your home's electricity running. A solar panel's efficiency rating represents the amount of energy absorbed that will be turned into electricity.

Who makes Yingli solar panels?

Yingli Solar is one of the oldest renewable energy manufacturers and has been in business since 1998. The Yingli business model covers the entire production process of the panel. From the raw materials that make silicon solar cells, or ingots, to the backsheets, Yingli strives to ensure that each solar panel is high-quality.

How much power does a Yingli solar panel produce?

In the case of Yingli solar panels, it is between 315W - 450W. The positive power rating for Yingli solar panels is listed at 0/+5 W, meaning that the panels will not produce less than their power rating but they might produce as much as 5 W more than their highest rated wattage.

In addition they also sell two bifacial panels that can make use of light falling on either side of the panel: Bifacial 400 watt, 144 half cells, Silver Frame, 2037 x 1005 x 30 mm; Panda N-Type Bifacial 410 watt, 144 cells, Silver Frame, 2037 ...
