

Yuasa storage battery Bosnia and Herzegovina

Are GS Yuasa Batteries recyclable?

Unlike most solutions on the market, GS Yuasa modules are constructed in a way that aids recycling. They use lithium manganese chemistry which is widely available from responsible and recycled sources. Click to download the GS Yuasa lithium-ion range brochure.

When will GS Yuasa install a storage battery facility?

This facility was ordered in 2018 and installed without incident over a 16-month period from July 2020 to November 2021. GS Yuasa is committed to the maintenance of this storage battery facility for the next 20 years.

Will GS Yuasa supply a 50MWh lithium-ion battery storage system?

GS Yuasa Battery Europe Ltd. are proud to highlight a significant achievement by their parent company GS Yuasa who will supply a 50MWh lithium-ion battery storage system for the Tsunokobaru Power Storage Station in Japan.

Why should you choose GS Yuasa lithium-ion batteries?

For over 30 years, GS Yuasa lithium-ion batteries have delivered unparalleled performance in critical applications. Using proven Japanese engineering and technology, our state-of-the-art cells and modules have been used in thousands of projects where failure is not an option.

Why is GS Yuasa a wind power plant?

Linking with wind power generation equipment suppresses output fluctuations caused by weather changes, contributing to the stabilisation of the system. The storage battery facility is equipped with industrial lithium-ion batteries manufactured by GS Yuasa.

How many subsidiaries does GS Yuasa have?

The GS Yuasa Group consists of 65 subsidiaries and 33 affiliates in countries throughout the world. For over 100 years, the GS Yuasa Group has continually contributed to economic development and the improvement of living standards through the development and manufacture of batteries, power supply systems and lighting equipment.
