Are there solar companies in Zambia?

The solar sector in Zambia hosts a variety of solar companies, operating in several business segments. These businesses vary from Solar Home Systems to utility scale developers. There are also international companies active in Zambia, mainly in the utility scale sector. Most offices of the companies in Zambia are located in Lusaka.

Why is solar power a problem in Zambia?

Furthermore, there are inadequate standards for the off-grid sector, which can, among others, lead to the circulation of sub-standard products. Since many areas in Zambia are rural and the population densities are low, maintenance in these areas can also be a problem. Zambia has a high potential for solar power and the sector is growing.

Does Zambia have a solar market?

The Zambian solar market is growing, although it is still relatively small in comparison with countries like Tanzania. 95% of the electricity supply in the country comes from hydropower, where less than 1% comes from other renewable sources. Since the electricity demand in Zambia is growing, there is much room for solar to grow as well.
