

Zerowatt company Uganda

How does Zerowatt's energy intelligence system work?

Zerowatt's Energy Intelligence System, a cutting-edge IOT AI-driven solution, provides businesses with powerful tools to monitor and manage energy consumption effectively. Cut costs by pinpointing energy waste and suggesting solutions. Prevent breakdowns by detecting early equipment issues.

What is Zerowatt & how does it work?

Zerowatt detects minor equipment issues before they escalate into major problems, helping prevent downtime and avoid potential revenue loss. By optimizing energy consumption, Zerowatt helps businesses reduce their carbon footprint, contributing to sustainability and enhancing the business's green reputation. The Industry to 4.0.

Does Uganda have a good energy sector?

Uganda has a well organised energy sector with a strong track record. The country has taken significant steps over the years to ensure security of supply and to set it on a path towards delivering least cost electricity to end users to drive industrialisation and economic growth. The Amari project will be the first of its kind in Uganda.

Will private investment support Uganda's transmission sector?

Gridworks and the Government of Uganda have agreed to develop a first-of-its-kind project to use private investment to support the development of Uganda's transmission sector. The agreement was announced today by the UK Prime Minister, Boris Johnson at the Commonwealth Heads of Government Meeting in Kigali.

Why should Uganda invest in electricity?

"The Government of Uganda wants to promote safe, reliable and sustainable electricity supply and facilitate stable regional electricity trade. By increasing investment in our electricity grid, we will be able to unlock suppressed demand; boost industrialisation and power our export sector.

The ZeroWatt Group in current formation was established in 2018 by the core management members that together have deep knowledge and long experiences from electro engineering, radio communication, sales of LED lighting for the public sector together with deep IT and finance skills. Head office is located to Greater Stockholm with an engineering team in

Pharmaceutical companies in Uganda hardly manufacture their own active pharmaceutical ingredients, rather they rely heavily on India and China for the raw materials. Kampala Pharmaceutical Industries (KPI) is the largest pharmaceutical manufacturer in Uganda in terms of volume. They produce over 60 generic medicines.
