

Zimbabwe solar backup system

Who is SolarPro Zimbabwe?

Solarpro Zimbabwe is one of the top solar installation companies in Zimbabwe. We specialise in the installation of the best solar systems that help homes, schools, farms and businesses become energy independent across the country. We do this by designing, installing, and monitoring reliable, offgrid, and backup solar systems.

Where can I buy a solar system in Zimbabwe?

Solarpro is your one-stop shop for affordable rent to buy, reliable solar systems in Zimbabwe. We sell and install panels, inverters, lithium batteries, and accessories. Get Rent to Buy solar Today

How do solar inverters work?

Inverters are now very advanced to the point of some of them having apps and communication tools that allow you to monitor the state of your solar system and manage the parameters of the system. For those that love tinkering this is a very exciting feature. You can even see if you have electricity even when you are not at home.

How does SolarPro energy storage system work?

Solarpro Energy Storage Systems come with a real-time app that allows you to view system usage, faults and more. Your app allows you set multiple charging modes. You can take full advantage of the sun with our systems.

Do I need a deposit to install a solar system?

All systems require 30% deposit. We design solar systems for every home or business using tried and tested equipment. We don't just sell you solar; we provide you with solutions that will last for years. We promise to visit every site before installation to make sure we understand and address all your needs.

What is the cheapest component of a solar system?

Batteries are the single most expensive component of solar systems. The cheapest battery on this list can buy 6x455W panels which is half the number of panels you'll need for a 5KVA system. And the average life of the batteries is 10 years given you stick to their preferred conditions.
