

Green Power Solutions S.A. de C.V., ha tenido la visión de contribuir a la disminución del impacto a la contaminación ambiental, a través de la generación de energía sustentable, aprovechando la emisión de radiación solar y transformándola en energía eléctrica para cubrir las necesidades de consumo comercial o doméstico.

The choices you make at every level matter: from the materials you use to build your shop to how you power your lifts. Your shop's carbon footprint is composed of a hundred different decisions you've made. Here's one that can make your footprint a little smaller: choosing a mobile lift with DC battery power. Here's why:

From Bassomia to beyond, we remain committed to driving positive change through innovation, integrity, and a steadfast dedication to a brighter, greener future. Join us in celebrating the power of solar energy and the transformative potential it holds for communities like Bassomia. Together, let's illuminate the path to a sustainable tomorrow!

Amsterdam, March 14 th, 2022 - Due to future growth ambitions and clear demand in the market for temporary and clean energy storage, the Amsterdam-based scale-up Greener Power Solutions has taken the next step to expand its mobile battery fleet.
